REVIEW / SYNTHÈSE

Mark Tibbett and John W.G. Cairney The cooler side of mycorrhizas: their occurrence and functioning at low temperatures 51

ARTICLES / ARTICLES

Patricia Doak, Diane Wagner, and Adam Watson Variable extrafloral nectary expression and its consequences in quaking aspen 1

Hans Henrik Bruun, J.F. Scheepens, and Torbjörn Tyler An allozyme study of sexual and vegetative regeneration in *Hieracium pilosella* 10

Matthew P. Davey, Björn Berg, Bridget A. Emmett, and Phil Rowland Decomposition of oak leaf litter is related to initial litter Mn concentrations 16

Shota Jikumaru and Toshikazu Sano Distribution of late instar *Lymantria dispar* cadavers killed by *Entomophaga maimaiga* on trunks of several tree species in southwestern Japan 25

Jocelyn Campbell and Arthur L. Fredeen Contrasting the abundance, nitrogen, and carbon of epiphytic macrolichen species between host trees and soil types in a sub-boreal forest 31

Nicole J. Fenton, Catherine Béland, Sylvie De Blois, and Yves Bergeron *Sphagnum* establishment and expansion in black spruce (*Picea mariana*) boreal forests 43

Helen A. Violi, Kathleen K. Treseder, John A. Menge, Sara F. Wright, and Carol J. Lovatt Density dependence and interspecific interactions between arbuscular mycorrhizal fungi mediated plant growth, glomalin production, and sporulation 63

C.W. Mims, R.T. Hanlin, and E.A. Richardson Light- and electron-microscopic observations of *Cladosporium* sp. growing on basidia of *Exobasidum camelliae* var. *gracilis* 76

Peter A. Siver and Alexander P. Wolfe *Eunotia* spp. (Bacillariophyceae) from Middle Eocene lake sediments and comments on the origin of the diatom raphe 83

Pauline E. Quesnelle and R.J. Neil Emery *cis*-Cytokinins that predominate in *Pisum sativum* during early embryogenesis will accelerate embryo growth in vitro 91

Maria Romeralo, Omar Fiz-Palacios, Carlos Lado, and James C. Cavender A new concept for *Dictyostelium sphaerocephalum* based on morphology and phylogenetic analysis of nuclear ribosomal internal transcribed spacer region sequences 104

NOTE / NOTE

N. Welty, C. Radovich, T. Meulia, and E. van der Knaap Inflorescence development in two tomato species 111

February / Février

ARTICLES / ARTICLES

Jennifer M. Lusk and Edward G. Reekie The effect of growing season length and water level fluctuations on growth and survival of two rare and at risk Atlantic Coastal Plain flora species, *Coreopsis rosea* and *Hydrocotyle umbellata* 119

Thomas Geburek, Karin Robitschek, Norbert Milasowszky, and Klemens Schadauer Different cone colours pay off: lessons learnt from European larch (*Larix decidua*) and Norway spruce (*Picea abies*) 132

Christopher H. Lusk, Mylthon Jiménez-Castillo, and Nicolás Salazar-Ortega Evidence that branches of evergreen angiosperm and coniferous trees differ in hydraulic conductance but not in Huber values 141

Mirwais M. Qaderi, M. Anisul Islam, David M. Reid, and Saleh Shah Do low-ethylene-producing transgenic canola (*Brassica napus*) plants expressing the ACC deaminase gene differ from wild-type plants in response to UVB radiation? 148

Kari Lehtilä and Kristina Holmén Bränn Correlated effects of selection for flower size in *Raphanus raphanistrum* 160

© 2007 NRC Canada

Christine E. Dawe and Edward G. Reekie The effects of flooding regime on the rare Atlantic coastal plain species *Hydrocoytle umbellata* **167**

C.W. Mims and E.A. Richardson Light and electron microscopic observations of the infection of *Camellia sasanqua* by the fungus *Exobasidum camelliae* var. *gracilis* **175**

Mathieu Chouteau, Denis Barabé, and Marc Gibernau Thermogenesis in *Syngonium* (Araceae) **184**

Hua Li, John Kuo, Martin John Barbetti, and Krishnapillai Sivasithamparam Differences in the responses of stem tissues of spring-type *Brassica napus* cultivars with polygenic resistance and single dominant gene-based resistance to inoculation with *Leptosphaeria maculans* **191**

J.F. Basinger, D.R. Greenwood, P.G. Wilson, and D.C. Christophel Fossil flowers and fruits of capsular Myrtaceae from the Eocene of South Australia. **204**

NOTES / NOTES

Paulo Monjardino, Jorge Machado, Fabíola S. Gil, Rui Fernandes, and Roberto Salema Structural and ultrastructural characterization of maize coenocyte and endosperm cellularization **216**

Frederick J. Ryan, Sergei L. Mosyakin, and Michael J. Pitcairn Molecular comparisons of *Salsola tragus* from California and Ukraine **224**

T.R. Cavagnaro and L.E. Jackson Isotopic fractionation of zinc in field grown tomato **230**

March / mars

REVIEW / SYNTHÉSE

Sébastien Roy, Damase P. Khasa, and Charles W. Greer Combining alders, frankiae, and mycorrhizae for the revegetation and remediation of contaminated ecosystems **237**

ARTICLES / ARTICLES

Allen G. Good, Susan J. Johnson, Mary De Pauw, Rebecka T. Carroll, Nic Savidov, John Vidmar, Zhongjin Lu, Gregory Taylor, and Virginia Stroeher Engineering nitrogen use efficiency with alanine aminotransferase **252**

Claude Lavoie and Stéphanie Pellerin Fires in temperate peatlands (southern Quebec): past and recent trends **263**

L. Dennis Gignac and Mark R.T. Dale Effects of size, shape, and edge on vegetation in remnants of the upland boreal mixed-wood forest in agro-environments of Alberta, Canada **273**

Ryan D. Haugo and Charles B. Halpern Vegetation responses to conifer encroachment in a western Cascade meadow: a chronosequence approach **285**

Bryce A. Richardson, Paul J. Zambino, Ned B. Klopfenstein, Geral I. McDonald, and Lori M. Carris Assessing host specialization among aecial and telial hosts of the white pine blister rust fungus, *Cronartium ribicola* **299**

Adrianne V. Rice, Markus N. Thormann, and David W. Langor Mountain pine beetle associated blue-stain fungi cause lesions on jack pine, lodgepole pine, and lodgepole × jack pine hybrids in Alberta **307**

A.V. Rice, M.N. Thormann, and D.W. Langor Virulence of, and interactions among, mountain pine beetle associated blue-stain fungi on two pine species and their hybrids in Alberta **316**

Elaine Lee-Ho, Linda J. Walton, David M. Reid, Edward C. Yeung, and Leonid V. Kurepin Effects of elevated carbon dioxide and sucrose concentrations on *Arabidopsis thaliana* root architecture and anatomy **324**

Christian R. Lacroix, Royce Steeves, and Joni F. Kemp Floral development, fruit set, and dispersal of the Gulf of St. Lawrence Aster (*Symphyotrichum laurentianum*) (Fernald) Nesom **331**

NOTES / NOTES

J. Kout and J. Vlasák *Trametes gibbosa* (Basidiomycetes, Polyporales) in the USA and Canada **342**

Stephan Scheffknecht, Marc St-Arnaud, Thanasan Khaosaad, Siegrid Steinkellner, and Horst Vierheilig An altered root exudation pattern through mycorrhization affecting microconidia germination of the highly specialized tomato pathogen *Fusarium oxysporum* f. sp. *Lycopersici* (*Fol*) is not tomato specific but also occurs in *Fol* nonhost plants **347**

April / avril

REVIEW / SYNTHÈSES

Naden T. Krogan and Thomas Berleth From genes to patterns: Auxin distribution and auxin-dependent gene regulation in plant pattern formation **353**

© 2007 NRC Canada

ARTICLES / ARTICLES

S. Shea Miller, Lana M. Reid, and Linda J. Harris Colonization of maize silks by *Fusarium graminearum*, the causative organism of gibberella ear rot **369**

Robert I. Bertin Sex allocation in *Carex* (Cyperaceae): effects of light, water, and nutrients **377**

Andrew W. Wilson, Erik A. Hobbie, and David S. Hibbett The ectomycorrhizal status of *Calostoma cinnabarinum* determined using isotopic, molecular, and morphological methods **385**

Nels R. Lersten and Harry T. Horner Calcium oxalate crystals in tribe Galegeae (Leguminosae) including foliar crystal macropattern development in *Caragana frutex* **394**

So Hanaoka, Jungo Yuzurihara, Yamashita Asuka, Nobuhiro Tomaru, Yoshihiko Tsumura, Yoshitaka Kakubari, and Yuzuru Mukai Pollen-mediated gene flow in a small, fragmented natural population of *Fagus crenata* **404**

Amy C. Blair and Lorne M. Wolfe The association between floral longevity and pollen removal, pollen receipt, and fruit production in flame azalea (*Rhododendron calendulaceum*) **414**

Karen K. Nakasone Morphological and molecular studies on *Resinicium* s. str. **420**

NOTE / NOTE

Michael D. McLean, Gordon J. Hoover, Bonnie Bancroft, Amina Makhmoudova, Shawn M. Clark, Tom Welacky, Daina H. Simmonds, and Barry J. Shelp Identification of the full-length $Hsl^{pro\text{-}1}$ coding sequence and preliminary evaluation of soybean cyst nematode resistance in soybean transformed with $Hsl^{pro\text{-}1}$ cDNA **437**

May / mai

REVIEW / SYNTHÈSE

Mahesh Basantani and Alka Srivastava Plant glutathione transferases — a decade falls short **443**

ARTICLES / ARTICLES

Benoît Audet, Esther Lévesque, and Gilles Gauthier Seasonal variation in plant nutritive quality for Greater Snow Goose goslings in mesic tundra **457**

Ilka E. Bauer, Diana Tirlea, Jagtar S. Bhatti, and Ruth C. Errington Environmental and biotic controls on bryophyte productivity along forest to peatland ecotones **463**

Andrea J. Morash, Douglas A. Campbell, and Robert J. Ireland Macromolecular dynamics of the photosynthetic system over a seasonal developmental progression in *Spartina alterniflora* **476**

Jie Qiu, Yong-Bi Fu, Yuguang Bai, and John F. Wilmshurst Patterns of amplified restriction fragment polymorphism in natural populations and corresponding seed collections of plains rough fescue (*Festuca hallii*) **484**

Sophia Karabournioti, Eleftherios P. Eleftheriou, Andreas Thrasyvoulou, and Costas Fasseas Pollen polymorphism in *Thymus capitatus* (Lamiaceae) **493**

Walter P. Hartl, Helmut Klapper, Bruno Barbier, Hans Jürgen Ensikat, Richard Dronskowski, Paul Müller, Gertrud Ostendorp, Alan Tye, Ralf Bauer, and Wilhelm Barthlott Diversity of calcium oxalate crystals in Cactaceae **501**

NOTES / NOTES

Derrick Ko Heinrichs, Jacques C. Tardif, and Yves Bergeron Xylem production in six tree species growing on an island in the boreal forest region of western Quebec, Canada **518**

Eugenia Menoyo, Alejandra G. Becerra, and Daniel Renison Mycorrhizal associations in *Polylepis* woodlands of Central Argentina **526**
